AUTOMOTIVE QUALITY MANAGEMENT SYSTEM

CERTIFICATION SCHEME

Meet Quality Expectations of Major Automotive Suppliers

Increase acceptance of your automotive products and gain a competitive edge in the market. SIRIM QAS is ready to assist automotive industries and their suppliers, strengthen their capabilities to compete on global markets, and address the challenges that exist in the ever dynamic automotive industry.

Powering Your Business - IATF 16949 Automotive Quality Management System

QUALITY SYSTEM

SIRIM

The automotive industry is constantly evolving. The IATF 16949 standard was designed to provide a quality management system unique to the automotive sector to meet these stringent and changing requirements of the globalised supply chains.

The standard was published by The International Automotive Task Force (IATF) as a global benchmark for quality for the industry. Automotive manufacturers and their respective trade associations have even made it compulsory for suppliers in the supply chain to be certified under this scheme.

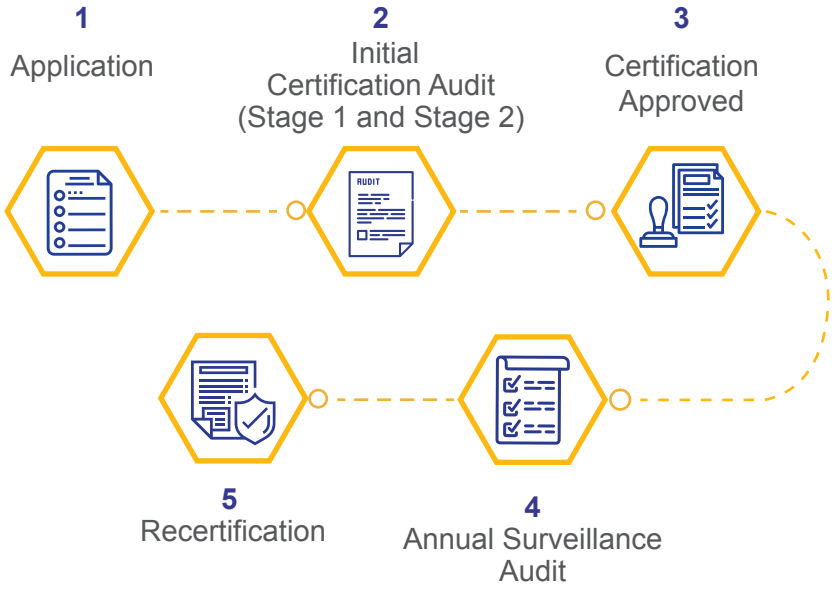
It helps companies implement a framework to improve product quality and identify risks and mitigation methods for continuous improvement. A risk-based approach to management helps prevent defects and reduce waste, streamlining operations and reduction of unnecessary costs.

SIRIM QAS is an IATF recognised certification body. With a team of competent local auditors with over 20 years' experience in providing automotive quality management systems certification, we remain to be a committed partner for the automotive industry.

Why Get Certified

- Implement best practices according to automotive-specific international standards.
- Gain access to local and international markets.
- Implement a culture of continuous improvement to drive customer satisfaction worldwide.
- Increase productivity, reduce defects in production and achieve greater cost efficiency.
- Demonstrate product conformity to specific markets' statutory and regulatory requirements.

Certification Process



SIRIM QAS – Fuelling Your Journey towards Quality

SIRIM QAS is a recognised Certification Body, authorised to conduct IATF 16949 certification activities, which ensures the acceptance of our certifications by all International Automotive Task Force (IATF) members worldwide. Our expertise extends to our pool of professional and competent local auditors with more than 25 years of experience in providing quality management system qualification for the automotive sector.

SIRIM QAS has also gained accreditations from the Department of Standards Malaysia (STANDARDS MALAYSIA) and the United Kingdom Accreditation Service (UKAS). These accreditations demonstrate the credibility of our services. Through our collaboration with our partners in the International Certification Network (IQNet), we are a one-stop centre for certification services around the globe.
