

ISO 22716 or the Cosmetics – Good Manufacturing Practices (GMP) Standard is the international standard that offers organisational and practical advice on the manufacturing, packaging, testing, storage and shipment of cosmetic products. It provides systematic guidance and practical information on the management of the human, technical and administrative factors affecting the quality of the product.

Internationally recognised ISO 22716 is a comprehensive quality management system for your business that combines product safety elements and business improvement tools, which enables you to meet not only local but global demand for safe and certified cosmetic products.

Certification Process:

Why SIRIM QAS?

SIRIM QAS is an internationally recognised conformity assessment body with decades of experience in providing testing, inspection and certification services to both local and international customers.

As a member of the International Certification Network (IQNet), it further enhances the acceptance and recognition of the certificates around the world and enable us to provide certification services globally.

We also gained accreditations from leading accreditation bodies such as the Department of Standards Malaysia (STANDARDS MALAYSIA) and the United Kingdom Accreditation Service (UKAS) for a number of schemes that we offer. These accreditations not only demonstrate the competence of our personnel and the credibility of our certification processes but also ensure the international recognition of our certificates.
