

ANTI-BRIBERY MANAGEMENT SYSTEMS

CERTIFICATION SCHEME

Benchmark your organisation's integrity and gain competitive advantage

Bribery is one of the major risks

faced by all types of organisations, regardless of the size or nature of the business, whether in the private or public sector.

It often results in loss of customers' confidence, negative image and subsequently may lead to the closure of organisations. MS ISO 37001 was developed to guide an organisation to prevent, detect and respond towards bribery and corruption. The standard is also to ensure organisations comply with the applicable laws, regulations and other voluntarily commitments.

It provides the requirements and guidance for establishing, implementing, maintaining and improving an anti-bribery management system. It is a universal standard, which can be applied by organisations of any size operating in any sector, whether independently or integrated into an overall management system.

Pioneer in Anti-Bribery Management System, SIRIM QAS is the **first** and **only** certification body accredited by the Department of Standards Malaysia to offer certification and auditing services for MS ISO 37001 standard.

Benefits

- + Prevent, detect, and respond to bribery towards better ethical business culture.
- + Identify and manage bribery by establishing risk-based anti-bribery management systems.

- + Improve organisational efficiency and effectiveness in managing risks associated with bribery.
- + Increase awareness of bribery's impacts on the organisation and highlights the ability to detect fraud.
- + Enhance an organisation's reputation and image by providing assurance of legal compliance.
- + Demonstrate a benchmark of good practice in anti-bribery management systems.
- + Promote an organisation's commitment to anti-bribery best practices.
- + Provide confidence and trust to potential partners.

Certification Process:

Why SIRIM QAS?

SIRIM QAS is an internationally recognised conformity assessment body with decades of experience in providing testing, inspection and certification services to both local and international customers.

As a member of the International Certification Network (IQNet), it further enhances the acceptance and recognition of the certificates around the world and enable us to provide certification services globally.

We also gained accreditations from the leading accreditation bodies such as the Department of Standards Malaysia (STANDARDS MALAYSIA) and the United Kingdom Accreditation Service (UKAS). These accreditations not only demonstrate the competence of our personnel and the credibility of our certification processes but also ensure the international recognition of our certificates.
