**2.0 Audit process**

2.1 Audit methodology

The audit covered Trong POM and the four supply base. The sampling of the number of the supply base was using the formula of  $0.8\sqrt{y}$ . Four supply base covered during the audit were Batu Pekaka Estate, Malakoff Estate, Kuala Muda Estate and Stothard Estate. The audit included on-site audit to the estates and settlers' houses to verify the implementation of the requirement of the certification. Interviews with the management of Trong BU, employees, contractors, local NGO's and other relevant stakeholders were also conducted during the audit.

It is important to note that the finding from this audit is based on samples taken from the organization activities, procedures, records and interview. Statistically, there is always a possibility that one or more issues/areas will remain unidentified during the course of this audit. The absence of non-compliance in any area or activity does not necessarily imply that no lapses or non-compliance exist.

2.2 Date of next surveillance visit

If the company is certified, the first surveillance audit will be conducted within 12 months from the decision date.
