

Build Your Reputation for Authenticity

Are you a gold manufacturer, refinery or assaying, company? If so, you will most likely know that in Malaysia, articles containing precious metals must meet a standard of fineness and purity according to the Trade Descriptions Act 1972. But how do you show that your precious metal articles are really what meets the eye?

SIRIM QAS has the golden solution. Its SIRIM Gold Hallmarking Certification Scheme is able to authenticate the fineness, purity and content of articles made out of gold, silver, platinum and palladium. Based on the MS 1247:2005 standard, certification can help you build trust and confidence among customers, thus opening up more opportunities in local and international markets.
