

ENABLING BUSINESSES. ENHANCING LIVES

CORPORATE SUSTAINABILITY REPORTING

Drive Transparency in Sustainability
Disclosures

Ensure the integrity of your reporting process and secure the trust of relevant stakeholders. Sustainability reporting has become a norm in business as it assures that companies are accountable for the impact of their business activities. SIRIM QAS can help ensure that your reporting framework complies with international standards and/or reputable national guidelines enhancing the credibility of your disclosures.

Towards High-Quality Reporting – Corporate Sustainability Reporting

A sustainability report details the economic, environmental and social impact of an organisation's everyday activities. It allows companies to communicate their sustainability performance through the established triple bottom line concept of profit, people and planet.

SIRIM QAS can help you strengthen your internal reporting management system, reducing the risk in data reporting and concurrently increase data value. We provide assurance that reporting methods align with any reputable national guidelines and/or Global Reporting Initiatives (GRI) Standards, widely considered as the international standard to sustainability reporting.

A robust reporting process is integral to ensure the credibility of the end product presented to stakeholders. Our service allows you to identify rooms for improvement in your approach, and to effectively monitor and communicate performance on a continual basis. This drives greater transparency and accountability in your reporting.

Why It Matters

- Determine strengths and weaknesses in your internal reporting management systems.
- Improve the reputation of your company and build brand image as a responsible corporate citizen.
- Strengthen your company's vision and strategy on sustainability.
- Assure stakeholders that best reporting standards are maintained, enhancing the credibility of your report.
- Provide independent assurance that your reporting methods comply with reputable national guidelines and international standards.
- Encourage more effective engagement with internal and external stakeholders.

Corporate Sustainability Report Assurance Process
