

FOREST

MANAGEMENT SYSTEM

Paving the Way to a Sustainable
Forest Ecosystem

Enhance the economic viability of your forest management system from the only trusted partner in Malaysia. The Programme for the Endorsement for Forest Certification (PEFC) is designed to promote sustainable forest management, ensuring the industry maximise its gains, the sustainable way.

Easing Concerns with Credentials – The Forest Management Certification

The Programme for the Endorsement for Forest Certification (PEFC) can secure your place in the timber supply chain. As the logging industry is subject to strict regulations, you need to set your business apart as a forerunner for sustainable practices in forest management.

Endorsed by the Malaysian Timber Certification Council (MTCC), PEFC provides independent assessment for the management of natural and replanted forests. It ensures mechanisms are in place to lessen the adverse impact of logging activities and minimise waste associated with harvesting and on-site processing operations.

PEFC assures stakeholders that forest owners and concession holders are making optimal use of all forest resources under their custody. It helps strengthen and diversify the local ecosystem, reducing dependence on a single forest product.

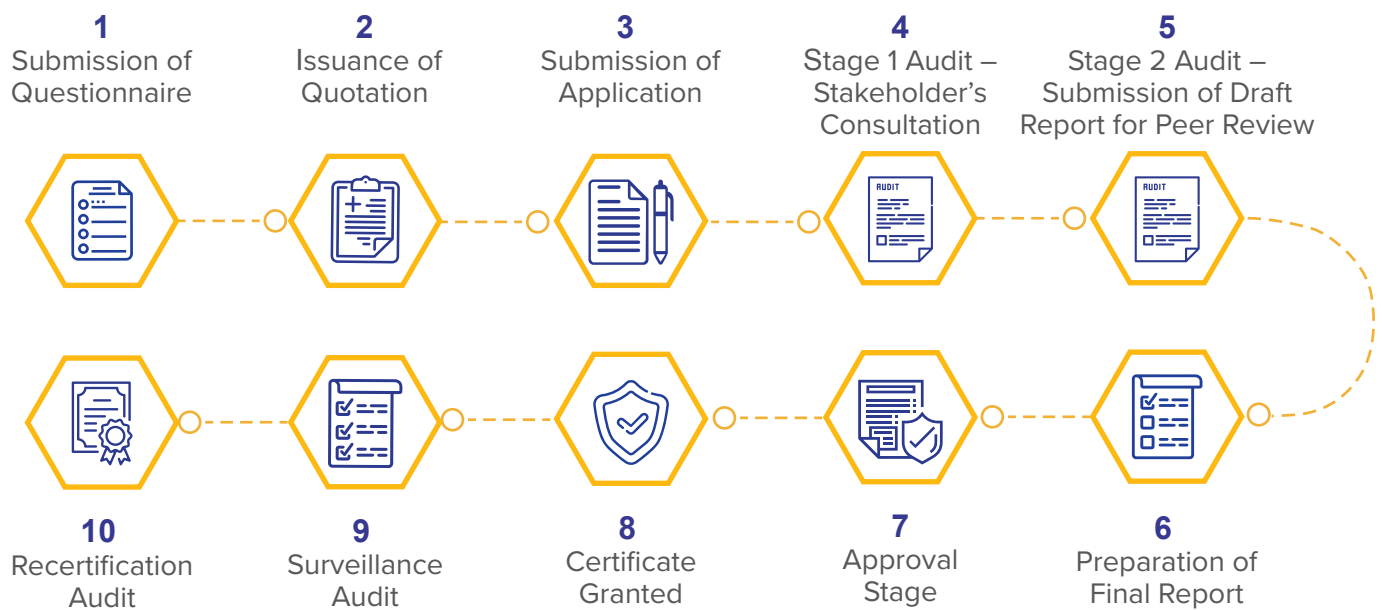

The management system also evaluates the impact of forestry activities on land, workers and communities within the forest ecosystem, thus enabling businesses to ensure continual compliance with social standards.

SIRIM QAS International as one of the accredited certification body in Malaysia which entrusted to provide Forest Management Certification in order to ensure the Malaysia forests are managed efficiently and sustainably.

Why Get Certified

- Gain access to the global market through internationally recognised PEFC with SIRIM QAS.
- Enhance reputation within the industry as a socially responsible and environmentally conscious organisation.
- Ensure the longevity and sustainability of the natural assets under your care through implementation of a forest management plan.
- Boost sales to meet demands for sustainably-sourced timber.

Certification Process

SIRIM QAS – Your Partner in Sustaining the Future

SIRIM QAS is the sole accredited body in Malaysia for the PEFC, appointed and endorsed by MTCC.

As the leading certification body with accreditation by the Department of Standards Malaysia, our certification will help ensure the sustainability and longevity of your forestry operations.

With experience that spans decades, stellar track record and most importantly, a highly competent team of auditors, you have our commitment in providing added value to your business.
