

# ALCOHOL-BASED HAND SANITISERS FOR GENERAL HAND HYGIENE

Testing and Product Certification Scheme

Quality Assurance for Hand Sanitisers

**Meet the demand for quality products by certifying your hand sanitisers today. Our certifications provide independent assurance that hand sanitisers meet the highest standards for quality and effectiveness. Enhance consumer confidence in your products and gain a competitive edge in the market.**

### **Testing and Certification for Alcohol-based Hand Sanitisers**

Alcohol-based hand sanitisers are classified as cosmetic products and identified by relevant regulatory requirements as viable alternatives to soap and water. However, their efficacy depends on their active ingredients or the level of alcohol they contain.

Alcohol-based hand sanitisers, whether in the form of liquid, gel or foam, are designed to eliminate pathogens such as bacteria, yeasts, fungi and viruses. They should contain specific levels of alcohol that act as antimicrobial agents that work immediately and effectively when applied on hands.

However, poorly made hand sanitisers with insufficient alcohol content present a significant risk to the health of users. With hand sanitisers quickly becoming a necessity, manufacturers need to assure consumers that their products are indeed effective and are of quality. This is where SIRIM QAS comes in.

We provide independent assurance that the tested alcohol-based hand sanitisers meet the highest standard for quality and effectiveness based on relevant quality standard.

## Why Get Certified

- Demonstrate that the product is manufactured in compliance with GMP requirements.
- Product quality complies with the National and International standards.
- Gain a competitive edge in the market.
- Enhance confidence in the quality and reliability of your products.
- Gain access to larger markets with stringent requirements for ingredients.
- Ensure that products are manufactured under an effective system of testing, supervision and control.
- Boost brand reputation and enhance marketability of your certified products.

## Application Process

## SIRIM QAS – Together in Ensuring Safety and Quality

SIRIM QAS is an internationally recognised Conformity Assessment Body with years of experience in providing testing, inspection and certification services to both local and international customers. We are backed by a team of highly-trained and experienced auditors in various sectors.

We are accredited by the Department of Standards Malaysia (STANDARDS MALAYSIA) under the MS ISO/IEC 17065 requirements for Product Certification Scheme. This demonstrates the competence of personnel and the credibility of our certification processes, to help organisations demonstrate full compliance with standard and certification requirements. We remain committed to offer service that meets the best interests of our clients.
