PRODUCT CERTIFICATION

Inspire Trust and Credibility by Ensuring Product Integrity

SIRIM QAS is a total solutions provider for product certification with over 50 years of experience in the field. We certify a wide range of products based on Malaysian Standards, International Standards and Industry Standards. The SIRIM Certification Mark, granted to products that meet quality, safety and performance requirements, is an effective tool for regulators, consumers, manufacturers, suppliers, distributors and importers to differentiate quality products, enhance acceptance of the products and gain a competitive edge in the market.

A Certified Mark of Quality – Product Certification Scheme

MS

SIRIM

In today's business climate, organisations face increasing pressure to meet the specifications and requirements of regulators, suppliers and customers before their products can be sold in the market.

This is where SIRIM QAS comes in. We perform audits, inspections and testing on a wide range of products based on local and international standards. These include the Malaysian Standard (MS), International Standard (ISO), British Standard (BS), European Norm (EN), American Water Works Association (AWWA), American Society for Testing and Materials (ASTM) International, Suruhanjaya Perkhidmatan Air Negara (SPAN) Technical Specification, Jabatan Kerja Raya (JKR) Standards, Tenaga Nasional Berhad (TNB) Specifications and many more as well as other industry specification and standard

We have also been entrusted by numerous government agencies and regulatory bodies as the certifying body for various regulated products such as communication devices, construction materials, electrical & electronics, chemical and consumer products, water and sewerage, Personnel Protective Equipment and more.
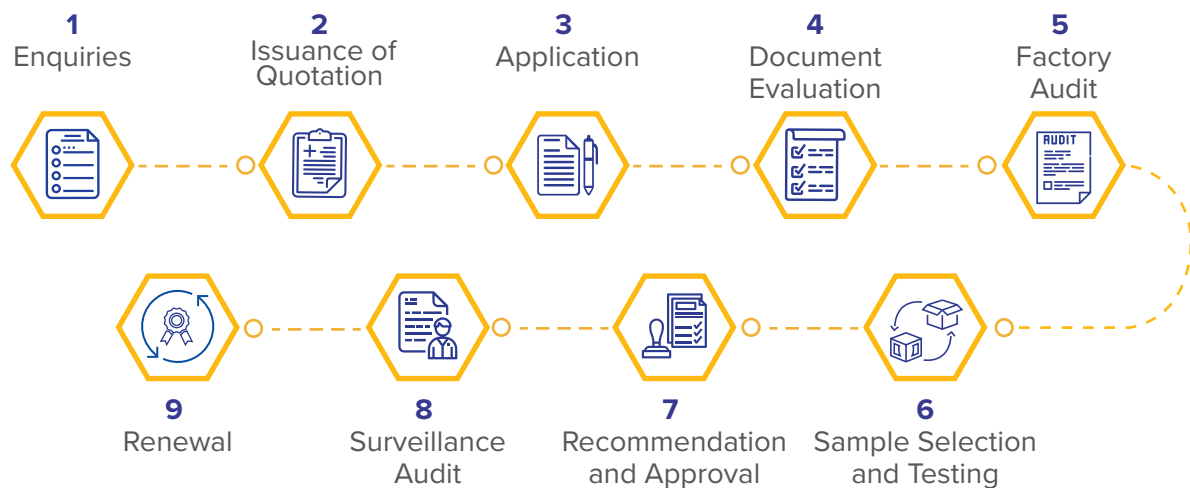

Applicants that fulfil the relevant requirements are granted a license to affix the SIRIM Certification Mark on their products as proof of conformity. For products regulated by regulatory bodies, an additional mark of conformity is granted in the form of QR labels with a unique serial number.

Leveraging on our expertise in conformity assessment, SIRIM QAS also offers combined audits for product certification and management systems certification for selected schemes. This helps you reduce time and costs associated with multiple audits and minimise disruptions to your organisation when audits are performed.

Why Get Certified

- Provide independent assurance that your product is manufactured under an effective system of testing, supervision, and control.
- Leverage on SIRIM QAS' 50 years of proven track record in product certification.
- Enhance consumer confidence in your products and meet customer expectations.
- Ongoing surveillance on production processes to ensure consistent conformity with relevant standards.
- Gain access to markets with stringent requirements on product safety, performance and quality.
- Boost brand reputation by demonstrating compliance with relevant standards.
- Differentiate your product in a highly competitive market.

Certification Process

1	2	3	4	5
