

READY-MIXED CONCRETE

**CERTIFICATION SCHEME AND TESTING
SERVICES**

**Your Concrete Vision For The Future
Begins Here**

In the construction and building materials business, it is important for man-made materials such as concrete to perform at the highest level in terms of durability and quality.

Ensuring Top Notch Quality – Ready-Mixed Concrete Certification Scheme and Testing Services

SIRIM QAS understands the importance of high-quality concrete materials, thus offers testing and product certification scheme services for Ready-Mix Concrete (RMC) as required by the Construction Industry Development Board (CIDB). Our team of experts can assist your business with various tests to ensure that your concrete materials comply with mandatory product safety requirements.

Local engineers, consultants, contractors, and suppliers of RMC are recommended to adopt the latest standards of MS EN 206 and CIS 21 in order to ensure the quality of the concrete. We are able to conduct conformity assessment of your concrete through our Ready-Mixed Concrete Certification Scheme.

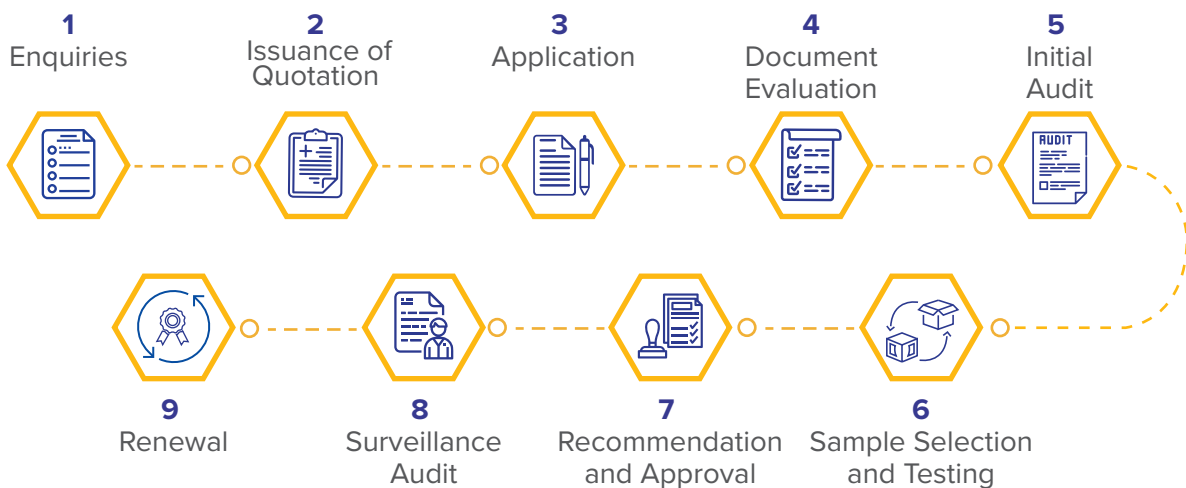

To provide added value and promote the reputation of our RMC licensees, SIRIM QAS International has issued a certification mark specifically for RMC industries whose products have been certified by us.

Product certification and testing services with SIRIM QAS are proof that your concrete materials sold in the market are of superior quality, giving you a competitive edge over your competitors.

The Importance of Certification and Testing

- To ensure that concrete used for construction is safe and reliable.
- To enhance the organisation's productivity and quality in the construction industry value chain through high-grade materials.
- To improve your organisation's brand reputation and market access with the SIRIM Product Certification Mark displayed on your concrete materials.
- The ready-mixed concrete certification and testing carried out under SIRIM QAS give your customers confidence and trust in the use of quality and certified materials.

SIRIM QAS – Your Essential Industry Partner

SIRIM QAS is an internationally recognised Conformity Assessment Body with years of experience in providing testing, inspection and certification services to both local and international customers.

We have gained accreditation and recognition from the Department of Standards Malaysia (STANDARDS MALAYSIA) for MS ISO/IEC 17065 on Product Certification Scheme, and MS ISO/IEC 17025 for National Laboratory Accreditation Scheme (SAMM). Our recognition demonstrates the competence of our personnel and the credibility of our certification processes to help organisations demonstrate full compliance with the standards and certification requirements. We remain committed to providing services that meet the best interests of our customers.
