**Take pride in complying with specific management systems for oil and gas!
SIRIM QAS International helps you showcase your commitment to industry best practices and quality management system in oil & gas industries, raise confidence in your products and services and secure new market share**

The Standard of Excellence in the Petroleum, Petrochemical and Natural Gas Industries

ISO 29001 specifies Quality Management System requirements for the petroleum, petrochemical, and natural gas industries. ISO 29001 aims to enhance customer trust and confidence in daily operations through the effective application of the system and the implementation of continual improvement processes, conformity assurance and regulatory requirements.

As the second largest oil producer in Southeast Asia and one of the world's five largest natural gas exporters, the oil and gas industry plays a significant role in the Malaysian economy.

The oil and gas industry requires systematic, rigorous checks, as any negligence could lead to huge, unreparable losses. It is crucial to have a Quality Management System in place that facilitates monitoring every operating procedure within the organisation.

SIRIM

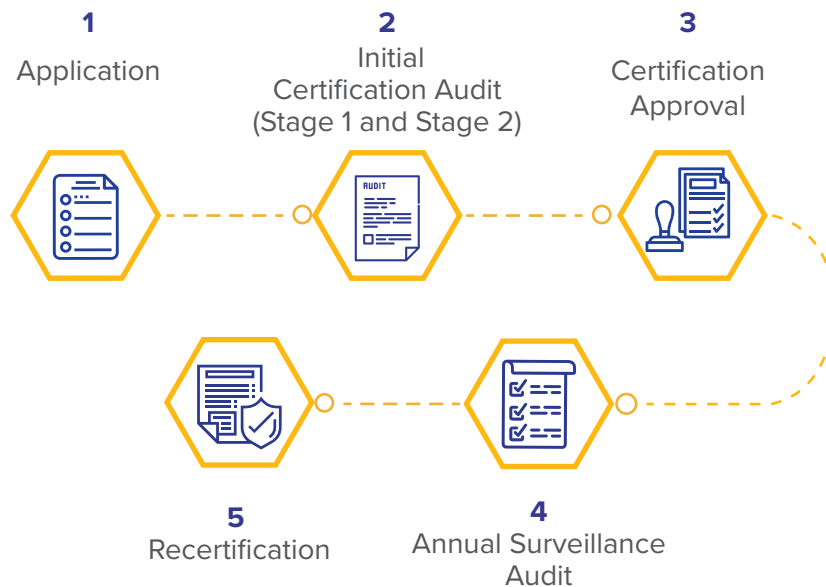

SIRIM QAS helps organisations to show commitment and competence with internationally recognized standards by providing ISO 29001:2020 Petroleum, Petrochemical and Natural Gas Industries Certification. This standard complements and supplements ISO 9001:2015 by offering all the specifications of the earlier standard with additional industry-specific ones that ensure companies manage supply chain risks, reduce wastage, and improve quality management.

Why Get Certified

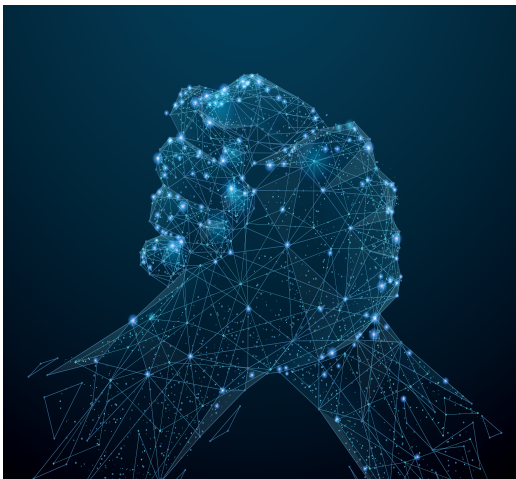

With ISO 29001 certification, you can showcase your commitment to best practices of quality management in oil and gas industries and reap the benefits including:

- Improve risk management practices and improve performance
- Reduce wastage and save costs
- Strengthen stakeholders' trust and confidence
- Streamline operations and enhance safety and quality
- Open access to new markets through meeting industry and regulatory requirements

Certification Process

SIRIM QAS – Your Partner for Innovation

SIRIM QAS is an internationally recognised conformity assessment body with decades of experience in providing testing, inspection and certification services to both local and international customers. With our team of professional auditors with extensive expertise in various industries, we remain committed to providing services that meet the best interests of our clients and are well-positioned to become a partner in the journey towards sustainability.

We have received accreditations from the Department of Standards Malaysia (STANDARDS MALAYSIA) and the United Kingdom Accreditation Services (UKAS), demonstrating the credibility of our certifications. As a member of the International Certification Network (IQNet), our certifications are accepted and recognised all around the world. Make your mark in the market with SIRIM QAS today.
