

# OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEM

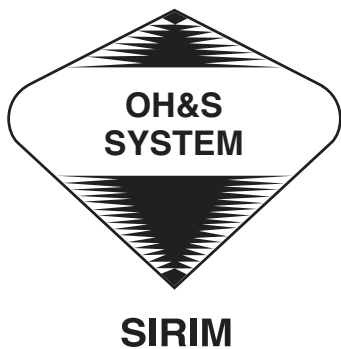

**CERTIFICATION SCHEME**

**Improve Workplace Health and Safety  
Performance Through Certification**

**SIRIM QAS certifies companies’ management systems against global standards to help them achieve its occupational health and safety objectives. With SIRIM QAS, you can ensure that business operations run smoothly by providing a safe and healthy working environment to workers, promoting greater performance and productivity throughout the organisation.**

**Ensuring a Safe and Healthy Working Environment – ISO 45001 Occupational Health and Safety Management System**

The ISO 45001 is a new international standard that helps companies reduce the risk of work-related illnesses and injuries. It defines requirements for an occupational health and safety management system for all companies regardless of size, type and activities.

Social compliance has become increasingly important in global business. Companies that demonstrate commitment to the wellbeing of its workers can assure its stakeholders that they operate at a level of safety and health compliance.

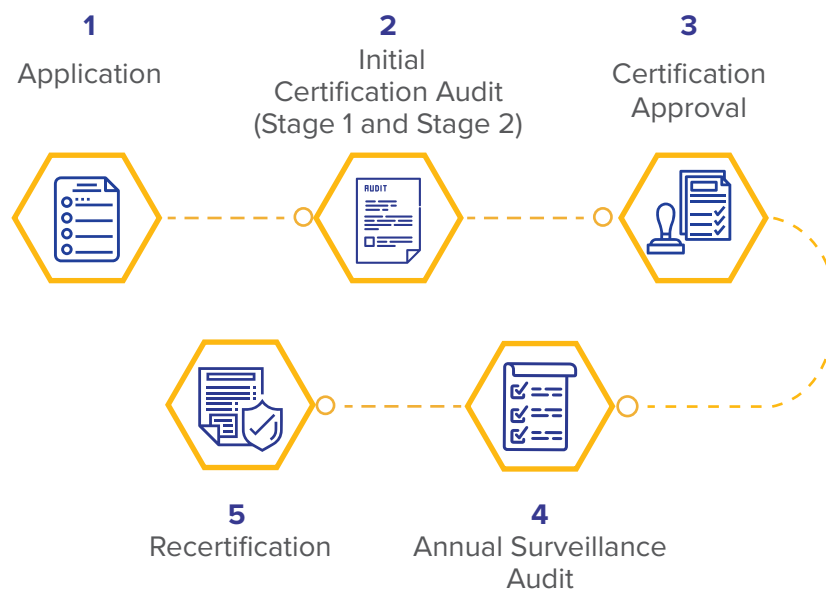

Under this framework, companies determine and address the risks and opportunities to improve its occupational health and safety performance. The management system also imbues a safety culture and awareness throughout your company as it encourages participation from all levels of the organisation.

As the ISO 45001 adopts a High-Level Structure similar to other management systems, SIRIM QAS offers the option of combining certification audits of two or more management systems to minimise disruption caused by several external audits to your organisation.

## Why Get Certified

- Enhance productivity by ensuring decent working conditions for all employees, visitors and contractors.
- Reduce downtimes that could arise from ill-health or injuries at the workplace.
- Meet applicable legal requirements and other requirements related to occupational health and safety.
- Assure stakeholders that business is operated in legally acceptable conditions, safeguarding the quality of your products and services.
- Ease market access to other regions that have stringent social compliance requirements.

## Certification Process

## SIRIM QAS – Your Safety is Our Priority

SIRIM QAS is an internationally recognised Conformity Assessment Body with years of experience in providing testing, inspection and certification services to both local and international customers. Together with our team of highly-trained auditors, we are committed to offering service that meets our clients' best interests.

Our Occupational Health and Safety Certification also gained accreditations from the Department of Standards Malaysia (STANDARDS MALAYSIA), demonstrating our certification's credibility and the impartiality of our processes. As a member of the International Certification Network (IQNet), our certificates are accepted and recognised all around the world.
